OBJECTIVE

Flutter developer

I have 2 years of experience in Flutter, and I am proficient with Dio, Bloc/Cubit, design patterns, state management, and project structure. I am also a passionate, tech-savvy, analytical, and creative person with a problem-solving mindset and attention to detail. My background in design and UI/UX will be a valuable asset in mobile development.

WORK EXPERIENCE

01/04/2024 – CURRENT dubai, United Arab Emirates

Flutter developer Storeus

working on multinational ecommerce app

01/10/2023 – 01/05/2024 Cairo, Egypt

Mobile Application developer MediConsult

developed a medical insurance application, designed to replace physical insurance cards for its members. Key features of this app include a comprehensive medical network equipped with filters and search functionality, as well as the capability to find the nearest medical facilities. Users can easily navigate to these locations or make phone calls directly from the app using specific provider location numbers. Additionally, the app offers an approval request feature where users can send voice and text messages, along with attachments, to seek authorization for services. Upon approval, users are promptly notified through the app. also getting refund and policies info

01/07/2023 – 01/10/2023 Riyadh, Saudi Arabia

Mobile Application developer EASACC

created ARMK application, a platform enabling a Client-to-Worker Connection. This application includes both a provider and a client interface. Providers can list their services and products under specific categories, while users can browse these offerings and make purchases or service requests. also cart, track order screens

09/01/2022 – 01/03/2023

Receptionist (Military Service) Moon Light Hotel Cairo

I held a position of great responsibility as a receptionist, where I dealt with hotel management software and its complexities. I was also responsible for managing and altering Booking.com reservations. I also encountered the skill of creating specialized invoices, dealing with a lot of money and foreign currency, dealing with server hardware issues, and contacting hotel management software to fix it. Moreover, I had the opportunity to interact with many foreign guests this whole experience allowed me to develop organizational, social skills, multitasking, and time-management skills, General Bakr Bayoumi awarded me for my loyalty at the end of my service. Certificate

01/11/2020 – 28/02/2021

Flutter developer workshop Softagi

https://www.linkedin.com/company/softagiss

developing e-commerce app while applying clean code, using components, bloc design pattern, data base with api-json,
